

## Hear What Patients Have to Say About the NuLids System:

*The patient testimonials cited below have been provided without any compensation.*

"I have been using Nulids since November 2018. **I cannot tell you how much I love this machine!** My doctor had me at first using NuLids three times a day due to my severe dry eyes. I am now using it only once a day and still getting great results. I have been placing a little lubricant on my eyelid as well as the tip during the procedure and have found this to work much better. **My doctor wants me to start slowing down on my daily use of Xiidra which I have been doing. I am so thankful that I was told about NuLids!**

*Carol  
Arkansas*

---

"Your product works very well.

I have been using my NuLids for about 45 days now and, **have noticed a significant improvement in my dryness since beginning my daily treatments. I am not placing rewetting drops in my eyes throughout the day.**

I also used to be only able to wear my contact lenses until 5 or 6 pm. **Now, with NuLids, I am able to comfortably wear my contacts significantly longer than 12 hours."**

*Bill  
Owings Mills, MD*

---

"I've been using my NuLids device for a little over a month and am very happy with its performance. Since beginning NuLids, my quality of life has improved substantially. **I have been able to stop using anti-inflammatory prescription medications, which was costing me \$60 per month with insurance.** I had stopped wearing makeup, but now I'm wearing it again. And, I could not drive at night before – but now I can."

*Lory  
Phoenix, AZ*

---

"I also want to mention a helpful fact I discovered. Our bathrooms are decorated in white & cream with maroon colored towels/wash cloths. I always wash my face & especially my eyes off with warm water first. After using my NuLids I once again rinse my eyes off with clean warm water. It's always a pleasant surprise to see the additional white debris that is expelled from my eyes after using my NuLids. I would have never known of this additional eye collection had I not used a dark colored washcloth. Something's working, and this is proof!"

*Bonnie  
Eagan, MN*

---

"I have been suffering from Blepharitis and dry eye for many years. NuLids was recommended to me six months ago as a daily treatment for my dry eye condition. **I use NuLids daily. All my conditions**

**have materially improved, and my life has returned to normal. I don't know what I would have done on a long-term basis if it were not for NuLids.**

I hope that more people get exposed to the advantages of NuLids. NuLids, you are the best! Thank you."

*Greg  
Las Vegas, NV*

---

"Also, a quick note to let you know **that the \$30 to \$40 a month I was spending in drops has virtually disappeared.** Outside of a few drops I use on the NuLids device there is no need for them anymore. Both Joe and I sleep through the night and our dry eye symptoms have completely gone away.

Again, Joe and I would like to thank-you for introducing this product to us. **It has really made a difference in our lives."**

*Sherry  
Lake Worth, FL*

---

"Reduced need for in office treatments."

*Sheri  
Boca Raton, FL*

---

"Am not using other dry eye products. **Eliminated other products for daily use."**
