

Hear What Patients Have to Say About the NuLids System:

The patient testimonials cited below have been provided without any compensation.

“I am in my twenties and have had MGD for the past 15 years. During most of this time, I would wake in the morning with my lids swollen, stuck together, and feeling like sandpaper. I would use a gel in the evenings. During the day, I often found it necessary to use a heated pad or washcloth. But my eyes remained swollen. Occasionally, the eye pain was so severe it just hurt to drive to and from work.

But, since I began using the NuLids System about 2 weeks ago, a real change has occurred. I am now free of the discomfort and irritation. **I no longer need rewetting tears. I have not had any severe flare ups or pain when looking at lights.** And what is great is that it is easy to add it along with teeth brushing times. And it takes very little time to use these products daily.

I highly recommend the NuLids product. It can bring great relief to the dry eye suffering patients out there. Thank you so much for this product.”

*Alisha
Registered Nurse & Patient*

“I have seen over 25 doctors since my dry eye problems began seven years ago. During that time, I tried everything to improve my dry eye—thermal pulsation treatments, warm compresses, gland expressions, lid scrubs, fish oil, doxycycline, diet restrictions, and autologous serum tears. Going into air-conditioned public places, traveling in cars or on airplanes, and just walking outside was challenging.

I can honestly say that NuLids is the best thing that I have used to improve my meibomian gland dysfunction and dry eyes. For the first time, I can feel the oils coating my eyes and bringing about much needed relief. My eyes are no longer red and sore all the time. **My eye doctor told me that I now have copious amounts of oils flowing on my upper and lower lids. NuLids has allowed me to be much more comfortable, and I am now doing more of the things I love to do. I truly believe using NuLids is giving me my life back.** I just bought mascara to wear to celebrate my wedding anniversary this year, and that is truly amazing. I am so grateful that this quick and easy device is available to me and will also give help to others suffering with dry eyes.”

*Debbie
Boston, MA*

“My quality of life is much better. It took me about 3 weeks, but I wasn’t using the NuLids every day either. **Now I can drive. I wear contacts again. I was able to go back to work. I stopped using drops and my heavy gel at night. So, everything that I was told that NuLids would do for me, it did and so I’m very grateful for that.**”

*Jolene
Honolulu, HI*

“Before I began using NuLids, I was getting multiple sties on my lids that needed almost continuous treatment. Now, since switching to NuLids about 6 months ago, **I have not had one recurrence of sties**. When I last visited my doctor, he commented that has seen a significant improvement in the cleanliness of my lids. And, **I have also been able to begin wearing my contact lenses again** for several hours each day. I truly find my eyes to be much more comfortable since using NuLids.”

Ivana

Norfolk, VA

“I started using NuLids the first week of March of 2019. I have had so much relief after a very short time. I was going to try ‘thermal pulsation’, but instead tried this. So glad I did. **I now feel like I could not live without this device**. I would encourage anyone w MGD to try it. My eyes are not red and swollen anymore. I still may have a bad day, but overall. **I am doing 95% better**. Using drops less as well. Thank you NuLids for bringing this to market! **Anyone thinking about trying it...stop thinking and do it. You won’t be disappointed.**”
