

# NuLids<sup>®</sup>

## The innovative, doctor directed home treatment for Dry Eye Disease\*

**It's so easy your patients can  
use it with their eyes closed!**

### **Treat the disease, not just the symptoms**

The NuLids System is a unique doctor directed, at-home treatment for patients with Dry Eye Disease. NuLids effectively alleviates symptoms by stimulating and rejuvenating the Meibomian glands back to a healthy state.

### **Now there is NuLids**

Although there are dozens of at-home dry eye treatment options available today, most only treat the symptoms of dry eye and not its cause. Patients are left frustrated with no treatment plan, and with little to no relief from their debilitating symptoms.

**NuLids<sup>®</sup>**

*Doctor directed, at-home dry eye relief*

**NuLids creates a novel recurring revenue stream for your practice!**

\*NuLids is indicated for use with the following: Blepharitis, Demodex, or when the lid margins show evidence of thickening, cylindrical dandruff, meibomian stasis, ectasia, scaling, skurf, or when the lids become scalloped, rolled, or hyperemic. NuLids is typically prescribed with a lubricating gel, a cleanser such as hypochlorous acid for Blepharitis, or tea tree oil when Demodex is present.
