"My dry eye problems are a relatively recent issue. I've only used moisturizing eye drops to relieve irritation. Now, after using NuLids for a few months, I still apply eye drops as needed most days the frequency of use has dropped significantly. **NuLids has greatly improved my quality of life.** I depend upon reading a lot and found before using NuLids that I had to take frequent breaks to apply eye drops. **Now with use of NuLids in the morning and evening I can read for long stretches of time without needing to apply additional eye drops.**"

"I have been using the NuLids device for about ten months and could not be happier. I prefer the indirect method and being able to keep my eyes closed during treatment. In addition to my eyes feeling much better, **my eyelashes are now considerably thicker and longer. My eye doctor has**

noticed a big improvement in my overall eyelash and lid margin health. I would highly recommend NuLids to other patients with dry eye symptoms.”
